

Brock J. LaMeres

Professor, Department of Electrical and Computer Engineering
Director, Montana Engineering Education Research Center
Boeing Professor of Engineering Education
Montana State University, Bozeman, MT 59717
Tel: 406-994-5987; Email: lameres@montana.edu

Research Interests: computer engineering, embedded systems, space computing.

Education Interests: 1st year student motivation, e-learning systems, 1st year instruction pedagogy.

I. Education

- Ph.D. Electrical Engineering
University of Colorado, Boulder, CO. December 2005.
Thesis Topic: *Novel Design Techniques to Reduce SSN in VLSI Packaging*
Thesis Advisor: Sunil. P. Khatri
- M.S. Electrical Engineering
University of Colorado, Colorado Springs, CO. May 2001.
Thesis Topic: *Characterization of a Printed Circuit Board Via*
Thesis Advisor: T.S. Kalkur
- B.S. Electrical Engineering (*w/ highest honors*)
Montana State University, Bozeman, MT. December 1999.
Thesis: *Fuzzy Logic Voltage Controller for a Synchronous Generators*
Thesis Advisor: M.H. Nehrir

II. Professional Appointments / Employment

- 10/20-pres Affiliate Faculty, Gianforte School of Computing
Montana State University, Bozeman, MT.
- 7/18-pres Boeing Professor of Engineering Education, College of Engineering
Montana State University, Bozeman, MT.
- 7/18-pres Full Professor, Dept. of Electrical and Computer Engineering
Montana State University, Bozeman, MT.
- 10/16-pres Director, Montana Engineering Education Research Center (MEERC)
Montana State University, Bozeman, MT.
- 7/12-7/18 Associate Professor (with tenure), Dept. of Electrical and Computer Engineering
Montana State University, Bozeman, MT.
- 7/06-7/12 Assistant Professor, Dept. of Electrical and Computer Engineering
Montana State University, Bozeman, MT.
- 8/01-12/03 Adjunct Instructor (part time), Dept. of Electrical and Computer Engineering
University of Colorado, Colorado Springs, CO.
- 1/99-7/06 Hardware Design Engineer, Digital Validation Division
Agilent Technologies, Inc. Colorado Springs, CO.

III. Awards & Honors

- 2025 American Society of Engineering Education (ASEE), **National Outstanding Teaching Award** (peer selected).
- 2025 Institute of Electrical & Electronic Engineers (IEEE), **Bhagawandas and Rajani Lathi Award for Excellence in Engineering Textbooks**, (peer selected).
- 2025 MSU Provost Distinguished Lecture Series speaker (Provost selected), “From Montana to the Moon”.
- 2023 MSU **Vice President for Research’s Meritorious Technology & Science Award** (peer selected).
- 2022 MSU College of Engineering, **Excellence in Outreach Award** (peer selected).
- 2020 MSU **Fox Award** for excellence in research, teaching, and mentoring (peer selected).
- 2018 American Society of Engineering Education (ASEE), Electrical and Computer Engineering **Distinguished Educator Award** (national award, peer selected).
- 2018/2017/2016/2015/2014/2013, 2007 **Outstanding Instructor in Electrical and Computer Engineering**, Montana State University, Bozeman (student selected).
- 2015/2008 MSU Alumni Association & Bozeman Area Chamber of Commerce **Award for Excellence**. (student selected).
- 2017 Convocation Speaker, Montana State University (Provost selected), “Transforming Engineering Education”.
- 2015 MSU **James and Mary Ross Award** for excellence in integrating research findings into lower-level engineering courses (peer selected).
- 2014 MSU **Excellence in Online Teaching Award** for exceptional creation and/or delivery of online courses (peer selected).
- 2014 MSU College of Engineering **Lloyd Berg Mentorship Award** (peer selected).
- 2013 American Society of Engineering Education (ASEE), Pacific Northwest Section **Outstanding Instructor Award**.
- 2013 MSU **Teaching Innovation Award** for development of novel instructional techniques to teach engineering laboratories remotely (peer selected).
- 2011 MSU **President’s Excellence in Teaching Award** for exemplary impact on university education through competition capstone projects (peer selected).
- **Best Paper Award**, “The Montana MULE – A Case Study in Interdisciplinary Design”, American Society of Engineering Education Annual Conference, Multidisciplinary Engineering Division, Vancouver, B.C., June 2011.
- 2010 MSU College of Engineering **Excellence in Teaching Award** (peer selected).
- **Best Paper Award**, "Broadband Impedance Matching for Inductive Interconnect in VLSI Packaging", IEEE International Conference on Computer Design (ICCD). Circuit Consideration in Processor Design track, 2005.
- **Best Paper Award**, "Performance Modeling for Off-Chip Busses Considering Bandwidth and Cost", DesignCon-05. PCB & Package Co-Design Track, Feb 2005.
- **Outstanding Graduate Student in Electrical and Computer Engineering**, University of Colorado, Colorado Springs, 2001.

IV. Funded Research Projects

- Total Research Funding = \$20M, 58 projects (as PI = \$11M, 38 projects)
- Focus Area: Computer Engineering = \$15.3M
Engineering Education Research = \$4.9M
- Rank Breakdown: Assistant Professor = \$2.1M (1 → 12)
Associate Professor = \$2.4M (13 → 32)
Full Professor = \$15.5M (33 → 58)

58. Department of War – Air Force Research Laboratory (FAIN: FA86502239551_P00090), **\$4,817,000 (PI)**, *Cyber Resilient Computing Platform*, 9/26-9/29.
57. NASA EPSCoR (CAN: 80NSSC25M0012), **\$750,000** (co-PI, PI is John Ionis in ECE), *Programmable Photonics for Quantum Space Networks, Recovery, and Repair*, 10/25-10/28.
56. MSU Technology Transfer Office, NSF Accelerating Research Translation (ART), Seed Translational Research Project (STRP), **\$200,583 (PI)**, *Securing the Nation from Satellite-Based Cyberattacks*, 1/1/25 – 12/31/26.
55. Pacific Northwest National Lab, **\$1,800,624** (co-PI, PI is Ann Marie Rienhold in Computer Science), *Cyber Attack Mitigation for Specialized Systems*, 7/1/24 – 6/30/27.
54. Idaho National Lab, **\$255,000 (PI)**, *Programmable Hardware Authenticity Self Evaluation (PHASE)*, 1/17/24 – 9/21/26.
53. Kern Family Foundation, **\$25,000 (PI)**, *Developing 1st Year Curricular Initiatives to Spur Entrepreneurial Mindset*, 9/1/23 – 8/31/24.
52. National Science Foundation (Award ID: 2347117), **\$50,000 (PI)**, *I-Corps: Advancing Space Computing*, 11/1/23 – 10/31/24.
51. National Science Foundation (Award ID: 2322505), **\$99,999** (co-PI, PI is Craig Ogilvie in the Graduate School), *S-STEM Planning: Collaborative Planning to Support Talented, Low-income Graduate Students Being Employed while Completing their Degrees*, 10/15/23 – 9/30/24.
50. MSU Norm Asbjornson College of Engineering – Thorson Excellence in Engineering Research (TEER) Program, **\$25,000**, (co-PI, PI is Ali Yalcin in MIE), *Teaching Programming to Non-CS/CE Students: An Adaptive Learning Framework Approach*, 7/23 – 6/24.
49. WolfSSL, **\$29,800** (co-PI, PI is Clem Izurieta in Computer Science), *Secure Boot for neXtECU Engine Controller*, RI for Army SBIR, 2/1/23 – 8/31/23.
48. National Science Foundation (Award ID: 2221684), **\$99,836** (co-PI, PI is Brittany Fasy in Computer Science), *S-STEM Planning: Building a Montana Computing Consortium*, 7/1/22 – 6/30/23.
47. MSU Technology Transfer Office CATalyst Awards, **\$20,000 (PI)**, *CyberShield: Malware-Resistant Edge Computing for Critical Applications*, 7/1/22 – 6/30/23.
46. MSU Technology Transfer Office CATalyst Awards, **\$15,000 (PI)**, *Transitioning a Radiation Tolerant Computing Technology (RadPC) to Commercialization*, 7/1/21 – 6/30/22.
45. Idaho National Labs, **\$1,615,929** (co-PI, PI is Clem Izurieta in Computer Science), *Cyber QR Ops: Improving the Quality and Resiliency of Critical Computing Infrastructure*, 9/1/20 – 8/31/23.
44. Raytheon Corporation, **\$300,000 (PI)**, *Improving Cyber Survivability with Real-Time Hardware Diversification*, 1/1/20 – 6/30/23.
43. NASA SBIR Phase II Program (CAN: 80NSSC18P2129), **\$300,000 (University PI)**, *Highly Integrateable AI Modules for Planning, Scheduling, Characterization, and Diagnosis*, 1/1/20 – 06/30/22.
42. Kern Family Foundation, **\$598,400**, (co-PI, PI is Craig Woolard in Mechanical & Industrial Engineering), *Accelerating Development an Entrepreneurial Mindset Ecosystem Using Faculty Development and Outcomes Based Research*, 12/19 – 6/24.
41. NASA Flight Opportunities Program (CAN: 80NSSC20K0107), **\$500,000 (PI)**, *RadPC@Scale - Suborbital Flight Demonstration of a Radiation Tolerant Computer System at-Scale*, 1/1/20 – 6/30/21.

40. National Science Foundation (Award ID: 1936343), **\$1,483,166** (co-PI, PI is Robert Mokwa, Provost), *Faculty Development in Space Science*, 10/1/19 – 10/1/24.
39. NASA Lunar Surface Instruments & Payloads Program (CAN: 80MSFC20C0032), **\$1,771,571** (PI), *Lunar Demonstration of a Reconfigurable, Radiation Tolerant Computer*, 11/1/19 – 9/30/25.
38. MSU Design Sandbox for Engaged Learning (DSEL), **\$10,000**, (co-PI, PI is Kristen Intemann, History & Philosophy), *Technology, Ethics, and Society*, 7/1/19 – 6/30/22.
37. National Science Foundation (Award ID: 1916673), **\$415,166**, (co-PI, PI is Rebekah Hammack, Department of Education), *Looks Like Me: Leveraging Funds of Identity to Enhance Engineering Career Pursuits in Rural/Reservation Communities*, 7/1/19 – 6/30/22.
36. MSU Norm Asbjornson College of Engineering – Bryan Innovative Instructional Grants Program, **\$8,400**, *Scaling Up the Micro-Burst Model of Microprocessor Instruction*, 7/19 – 6/20.
35. MSU Norm Asbjornson College of Engineering - Thorson Excellence in Engineering Research (TEER) Grants Program, **\$25,000, (PI)**, *Initiating a Cybersecurity Research Program within the NACOE*, 7/19 - 6/20.
34. NASA – International Space Station Flight Opportunities (CAN: 80NSSC19M0037), **\$100,000, (PI)**, *Demonstration of Radiation Tolerant Memory Synchronization within a Reconfigurable Flight Computer*, 3/19 - 3/22.
33. NASA – Flight Opportunities Program (CAN: 80NSSC18K1671), **\$275,000, (PI)**, *Using Single Event Effects to Generate Truly Random Numbers for Encryption Keys*, 8/18 - 2/20.
32. MSU Norm Asbjornson College of Engineering – Bryan Innovative Instructional Grants Program, **\$8,400 (PI)**, *Microbursting Microprocessor Education*, 7/18 – 6/19.
31. National Science Foundation, (Award ID: 1735124), **\$492,485** (co-PI, PI is Shannon Willoughby, Department of Physics), *Fostering Effective Oral Communication Skills for STEM Graduate Students*, 1/1/18 - 12/31/20.
30. MSU Norm Asbjornson College of Engineering - Thorson Excellence in Engineering Research (TEER) Grants Program, **\$25,000, (PI)**, *Building Education Research Capacity within the MSU College of Engineering*, 7/17 - 6/18.
29. NASA - International Space Station Flight Opportunities (CAN: 80NSSC17M0037), **\$100,000, (PI)**, *Satellite Demonstration of a Radiation Tolerant Computer System Deployed from the International Space Station*, 7/17-7/20.
28. National Science Foundation, (Award ID: 1720801), **\$449,965** (co-PI, PI is Nick Lux, Department of Education), *Designing a Middle Grades Spatial Skills Curriculum*, 7/1/17 - 6/30/20.
27. NASA - 2017 CubeSat Launch Initiative (CSLI), **launch contract (PI)**, *Satellite Demonstration of a Radiation Tolerant Computer System: RadSat-u*, 2/17-2/20. Ranked #2 of 34 selected.
26. NASA - Undergraduate Student Instrument Payload - USIP (CAN: NNX16AI75A), **\$200,000 (PI)**, *Student Built CubeSat to Demonstrate a Radiation Tolerant Computer Technology*, 5/16-5/18.
25. National Science Foundation, (Award ID: 1544147), **\$150,000 (PI)**, *Engineering a Culture of Engagement*, 1/16-12/17.
24. Montana Space Grant Consortium (MSGC) - Educational Enhancement, **\$49,990** (co-PI, PI is Nick Lux, Department of Education), *Side-by-Side Learning: Using Minecraft and Gamification to Support Student Learning and Teacher Professional Development*, 1/15-12/15.

23. NASA - 2015 CubeSat Launch Initiative (CSLI), **launch contract (PI)**, *Satellite Demonstration of a Radiation Tolerant Computer System: RadSat-g*, 2/15-2/18. Ranked #2 of 14 selected.
22. MSU Technology Transfer Office CATalyst Awards, **\$10,000 (PI)**, *3+1 LEON4 Radiation Tolerant Computer System*, 12/29/14.
21. Montana Office of Commissioner of Higher Education, **\$100,165** (co-PI, PI is Nick Lux, Department of Education), *Scaling up the Bozeman Side by Side Learning Model*, 12/14-12/15.
20. National Science Foundation, (Award ID: 1432373), **\$298,102 (PI)**, *Deploying Adaptive Learning Environments to Overcome Background Deficiencies and Facilitate Mastery of Computer Engineering Content*, 1/15-12/17.
19. NASA - International Space Station Flight Opportunities (CAN: NNX14AL03A), **\$100,000 (PI)**, *Space Flight Demonstration of a Radiation Tolerant, FPGA-based Computer System on the International Space Station*, 6/14-12/17.
18. Montana University System Office of the Commissioner of Higher Education, **\$63,248** (co-PI, PI is Nick Lux, Department of Education), *Hyalite Partnership Evaluation and Summer STEM Camp*, 1/14-11/14.
17. NASA - Small Sat Technology Partnership (CAN: NNX13AR03A), **\$183,478 (PI)**, *Radiation Tolerant, FPGA-based SmallSat Computer System*, 9/13-9/15.
16. Montana Tech - Montana High Performance Computing (HPC) Research Seed Grant, **\$5,000 (PI)**, *Using the Montana High Performance Computing Infrastructure for Benchmarking of Space Imaging Algorithm*, 6/13 - 12/13.
15. Montana State University - Instructional Innovation Grant, **\$10,000 (PI)**, *Applying Adaptive Learning to a Digital Circuits Laboratory*, 1/13 - 12/13.
14. Montana Space Grant Consortium (MSGC) - Educational Enhancement, **\$49,298 (PI)**, *Vertically Integrating a Robotics Thread Through the Undergraduate ECE Curriculum at MSU-Bozeman*, 1/13-12/14.
13. NASA - Game Changing Opportunities (CAN: NNX12AM50G), **\$98,706 (PI)**, *Suborbital Flight Demonstration of an FPGA-based, Radiation Tolerant, Reconfigurable Computer System with Real Time Fault Detection, Avoidance and Repair*, 1/13-12/14.
12. Corporate Sponsorship Campaign through the MSU Foundation, **\$11,800 (PI)**, *The 2012 NASA Lunabotics Competition Team*, 8/11 – 5/12.
11. Advanced Acoustic Concepts, **\$174,996** (co-PI, PI is Richard Wolff, ECE Department), *Ocean Modeling Algorithm Evaluation*, 11/11 - 10/12.
10. NASA ESMD Innovative Project CAN (CAN: NNX10AN91A), **\$163,350 (PI)**, *Engaging Women in Engineering Through an 8-Week, Interdisciplinary Payload Design to Test a Radiation Tolerant Computer Technology*, 9/10-8/13.
9. NASA EPSCoR (CAN: NNX10AN32A), **\$750,000 (PI)**, *Development and Testing of a Radiation Tolerant Flight Computer with Real-Time Fault Detection, Recovery, and Repair*, 9/10-8/13.
8. National Science Foundation, (Award ID: 0958317), **\$401,086** (co-PI, PI is Richard Wolff, ECE Department), *MRI-R2: Instrumentation for Development and Testing of Digital Beam forming Antennas*, 7/10-7/13.
7. NASA Advanced Avionics and Processors Systems (APPS) Project, **\$40,000 (PI)**, *Radiation- Aware Space Computing*, 2/10-12/11.
6. Montana Space Grant Consortium: Educational Enhancement, **\$29,991 (PI)**, *An Interdisciplinary Capstone Experience: Designing a Robotic Lunar Regolith Excavator*, 1/10-12/10.

5. National Science Foundation, (Award ID: 0836961), **\$148,732 (PI)**, *Improved Learning of Microprocessors Through Measurement and Hands on Experience*, 6/09-10/11.
4. NASA / National Space Grant Foundation, **\$28,320** (co-PI, PI is Lisa Brown, Extended University), *Using Robotics in an Inquiry Based Course to Learn Unmanned Exploration of the Moon*, 1/09-12/09.
3. NASA ESMD Higher Education Project / MSGC, **\$23,000 (PI)**, *Senior Capstone Projects (6x) - Radiation Tolerant Reconfigurable Computing + Robotics*, 9/08-12/11.
2. Montana Space Grant Consortium (MSGC): Research Initiation, **\$39,458 (PI)**, *Radiation Hardened Computer Processors*, 1/08-8/09.
1. Advanced Acoustic Concepts Inc., **\$277,289** (co-PI, PI is Richard Wolff, ECE Department), *Wireless Telemetry using Digital Beam Forming of Adaptive Antenna Arrays*, 10/07-9/09.

V. Teaching Experience

7/06-pres	Montana State University , Assistant/Associate/Full Professor) Department of Electrical and Computer Engineering, Bozeman, MT.
	EELE 101 – Introduction to Electrical Fundamentals (11x)
	EELE 207 – Circuits II (1x)
	EELE 261 – Introduction to Logic Circuits (28x)
	EELE 367 – Logic Design (27x)
	EELE 371 – Microprocessor Hardware and Software (20x)
	EELE 414 – Introduction to VLSI Design (5x)
	EELE 461 – Digital System Design (<i>developed</i>) (6x)
	EELE 561 – Advanced Digital System Design (<i>developed</i>) (5x)
	PHSX 591 – Robotics in Lunar Exploration (<i>developed</i>) (4x)
	EELE 591 – Logic Circuits for Teachers (<i>developed</i>) (2x)
	CSCI 109 – C Programming for Engineers (<i>co-developed</i>) (7x)
8/01-12/03	University of Colorado , Adjunct Instructor (part-time) Department of Electrical and Computer Engineering, Colorado Springs, CO.
	ECE3420 – Microprocessor Systems Laboratory I (1x)
	ECE3430 – Intro to Microprocessor Systems (2x)
	ECE3440 – Microprocessor Systems Laboratory II (2x)

VI. Publications & Presentations

- *Student authors are underlined.*
- * indicates the presenting author when delivered in technical session format.
- + indicates the presenting author when delivered in poster session format.

A. Books

6. **Brock J. LaMeres**, *Embedded Systems Design using the MSP430FR2355 LaunchPad™*, 2nd edition, Springer International Publications, 2023, ISBN 978-3031208874.
5. **Brock J. LaMeres**, *Quick Start Guide to Verilog*, 2nd edition, Springer International Publications, 2023, ISBN 978-3031441035.
4. **Brock J. LaMeres**, *Quick Start Guide to VHDL*, 2nd edition, Springer International Publications, 2023, ISBN 978-3031425424.

B. Peer-Reviewed Journal Articles

- *The following underwent a full peer-review of the entire manuscript prior to being published in a journal.*

- Papers 1 → 7 are as a student and/or practicing engineer.
- Paper 8 is as an Assistant Professor at MSU.
- Papers 9 → 15 are as an Associate Professor at MSU.
- Papers 16 onward are as a Full Professor at MSU.

D. Formal Conference Presentations

- These are conference presentations or posters that were invited or accepted at a scholarly conference based on peer-review of the abstract or extended summary only. Some of these presentations had full-papers that were archived in a proceeding.

- Presentations 1 → 9 are as a student and/or practicing engineer.

- Presentations 10 → 15 are as an Assistant Professor at MSU.

- Presentations 16 → 21 are as an Associate Professor at MSU.
 - Presentations 22+ are as a Full Professor at MSU.

1. **Brock J. LaMeres**, "FPGA Logic Analysis", *Printed Circuit Design Magazine*, pp 21-24, July 2002. + *Elektro Automation*, July 2002.

F. Invited Talks

- These are presentations that were invited based on the topic or abstract only.

- Presentations 1 → 3 are as a student and/or practicing engineer.
 - Presentations 4 → 12 are as an Assistant Professor at MSU.
 - Presentations 13 → 28 are as an Associate Professor at MSU.
 - Presentations 29+ are as a Full Professor at MSU.
48. **Brock J. LaMeres**, "Montana on the Moon", Montana State University Alumni Foundation Alumni Engagement Advisory Board Meeting, Bozeman, MT, May 29, 2026.
 47. **Brock J. LaMeres**, "Panel - Licensing your IP: The why, when and how to get started", US Patent and Trademark Office (USPTO) Community Engagement Seminar, Online, May 27, 2026.

VII. Patents & Licenses

A. License Agreements

1. **Brock J. LaMeres** and Clemente Izurieta, "Malware-Resistant Obfuscated Computer Hardware for Reconfigurable Hardware Devices and Methods Thereof", License agreement between MSU and *Resilient Computing*, Oct. 2021 - pres.
2. **Brock J. LaMeres**, "Fault-Tolerant Computer for Reconfigurable Hardware Devices", License agreement between MSU and *Resilient Computing*, May 2021 - pres.

B. U.S. Patents

16. **Brock J. LaMeres**, Christopher M. Major, and Hezekiah Austin, "Fault-Tolerant Computer System with Configurable Coprocessor Component and Methods Thereof", US Patent 12,287,713, April 29, 2025.
15. **Brock J. LaMeres**, Christopher M. Major, and Clemente Izurieta, "Malware-Resistant Obfuscated Computer Hardware for Reconfigurable Hardware Devices and Methods Thereof", *US Patent 12,050,688*, July 30, 2024.
14. **Brock J. LaMeres** and Christopher M. Major, "Fault-Tolerant Computer for Reconfigurable Hardware Devices", *US Patent 11,966,284*, April 23, 2024.
13. **Brock J. LaMeres**, Brent Holcombe, & Kenneth Johnson, "Probe accessories, and methods for probing test points using same", *US Patent 7,492,173*, Feb. 17, 2009.
12. Brent Holcombe, **Brock J. LaMeres**, & Kenneth Johnson, "Method and apparatus for probing at arbitrary locations within an inaccessible array of leads the solder balls or pins actually connecting a VLSI IC package to a substrate or socket", *US Patent 7,372,284*, May 13, 2008.
11. Kenneth Johnson & **Brock J. LaMeres**, "Board-to-Board Electronic Interface Using Hemi-Ellipsoidal Surface Features", *US Patent 7,338,292*, Mar. 4, 2008.
10. **Brock J. LaMeres** & Brent A. Holcombe, "Probe having a frame to align spring pins perpendicularly to a printed circuit board, & method of making same", *US Patent 7,323,892*, Jan. 29, 2008.
9. Glenn Wood, Donald M. Logelin, **Brock J. LaMeres**, & Brent A. Holcombe, "Regenerator Probe", *US Patent 7,282,935*, Oct. 16, 2007.
8. **Brock J. LaMeres**, Brent A. Holcombe, & Kenneth Johnson, "Probe Retention Kit, and System and Method for Probing a Pattern of Points of a PCB", *US Patent 7,242,203*, July 10, 2007.
7. Joseph Groshong, **Brock J. LaMeres**, & Brent A. Holcombe, "Signal Probe and Probe Assembly", *US Patent 7,242,202*, July 10, 2007.
6. **Brock J. LaMeres**, Brent A. Holcombe, & Glenn Wood, "Incorporation of isolation resistor(s) into probes using probe tip spring pins", *US Patent 7,183,781*, Feb. 27, 2007.
5. **Brock J. LaMeres**, Brent A. Holcombe, & Kenneth Johnson, "Apparatus, method, and kit for probing a pattern of points on a printed circuit board", *US Patent 7,145,352*, Dec. 5, 2006.

4. Brent A. Holcombe, **Brock J. LaMer**, & Donald M. Logelin, "Probe assembly with controlled impedance spring pin or resistor tip spring pin contacts", *US Patent 7,116,121*, Oct. 3, 2006.
3. **Brock J. LaMer**, Brent A. Holcombe, & Kenneth Johnson, "Probes with perpendicularly disposed spring pins, and methods of making and using same", *US Patent 7,046,020*, May 16, 2006.
2. **Brock J. LaMer** & Kenneth W. Johnson, "Electronic Probe Extender", *US Patent 7,025,628*, Apr. 11, 2006.
1. Brent A. Holcombe & **Brock J. LaMer**, "Alignment/Retention Device for Connector-Less Probe", *US Patent 6,822,466*, Nov. 23, 2004.

^B Project paper

^C Research conducted in Physics department

B. Other Student Advising

- I have, or am currently serving as co-chair on graduate committees for 10 students pursuing MS/Ph.D. degrees in the ECE department.
- I serve as the academic advisor for ~20 undergraduates students each year in the ECE department.
- I have served as the advisor for 16 senior capstone projects, of which I have sponsored 9 projects financially through grant funds.
- I have served as research advisor for 19 students that received fellowships through the MSU Undergraduate Scholar Programs (USP).
- I have served as research advisor for 5 students participating in NSF-funded *Research Experience for Undergraduates* (REU) programs.

C. Student Awards Under my Supervision

- G. Perkins, 2026 Don Pierre Graduate Student Paper Award – Best Conference Paper, “CyberShield: Secure Boot for Obfuscated Instruction Codes”, *2025 IEEE International Conference on Space Mission Challenges for Information Technology (SMC-IT)*, Los Angeles, CA, July 31 – Aug 1, 2025.
- H. Austin, 2025 Don Pierre Graduate Student Paper Award – Best Conference Paper, “Dynamically Reconfigurable Coprocessor for Floating-Point Arithmetic Capability in Small Satellites”, *2025 IEEE Aerospace Conference*, Big Sky, MT, March 1-8, 2025.
- Chris Major, 2021 Don Pierre Graduate Student Paper Award – Best Journal Paper, “RadPC: A Novel Single-Event Upset Mitigation Strategy for Field Programmable Gate Array–Based Space Computing”, *Journal of Aerospace Information Systems*, April 2021, DOE: 10.2514/1.1010859.
- Connor Julien, 2017 Don Pierre Graduate Student Paper Award – Best Conference Paper, “An FPGA-based Radiation Tolerant SmallSat Computer System”, 2017 IEEE Aerospace Conference, Mar 5-12, 2014, Big Sky, MT.
- Connor Julien, 2016 Montana Space Grant Consortium, Research Symposium, Student Achievement Award, April 2016.
- Justin Hogan, 2014 Don Pierre Graduate Student Paper Award – Best Conference Paper, “A Network-on-Chip for Radiation Tolerant, Multi-core FPGA Systems”, 2014 IEEE Aerospace Conference, Mar 5-12, 2014, Big Sky, MT.
- M. Peterson, Tesha Taveria, Kathryn Manning, Genevieve Suwara, Kasandra Miller, & Allison Walsh, 2014 Montana Space Grant Consortium, Research Symposium, Best Undergraduate Student Poster, “Payload Design for High Altitude Radiation Measurement”, April 2014.
- Justin Hogan & Ray Weber, 2013 Montana Space Grant Consortium, Research Symposium, Best Graduate Student Poster, “Radiation Tolerant Space Computing”, April 2013.
- Todd Buerkle, 2012 Don Pierre Graduate Student Paper Award – Best Conference Paper, “Ionizing Radiation Detector for Environmental Awareness in FPGA-Based Flight Computers”, *IEEE Sensors Journal*, vol.12, no.6, pp.2229-2236, June 2012.
- Raymond Weber, 2012 Don Pierre Graduate Student Paper Award – Best Conference Paper, “Design and Test of FPGA-based Direction-of-Arrival Algorithms for Adaptive Array Antennas”, 2011 IEEE Aerospace Conference, Mar 5-12, 2011, Big Sky, MT.
- Jennifer Hane, Kevin Love, Daniel Benson, Lars Osborne, Logan Warberg, Alison Figueira, Bethany Higgins, Garth Grubb, Seth Berardinelli, 2012 NASA Lunabotics Competition, 2nd place in Community Outreach Category, Kennedy Space Center, FL, May 2012
- Jennifer Hane, Kevin Love, Daniel Benson, Lars Osborne, Logan Warberg, Alison Figueira, Bethany Higgins, Garth Grubb, Seth Berardinelli, 2012 NASA Lunabotics Competition, 1st place in Systems Engineering Paper Category (\$750), Kennedy Space Center, FL, May 2012.
- Laurie Smoot, Tiffany Heetderks, Katie Schipf, Lizzy Clem, Steph Schielke, Rachael Luhr, 2012 Montana Space Grant Consortium Student Research Symposium, Best Group Presentation, 1st Place (\$500), Design of a High-Altitude Balloon Payload, April 2012.
- Justin Krohn, Charlie Ferguson, Chad Willett, Donovan Ferrin, Terrell Thomason, Joe Stack, Steve Iobst, Kris Bengtson, 2011 Montana Space Grant Consortium Student Research

- Symposium, Best Group Presentation, 1st Place (\$500), Design of a Robotic Lunar Regolith Excavator, April 2011.
- Ben Hogenson, Jenny Hane, Chris Ching, Steve Pemble, Craig Harne, John Ritter, and Paul Dallapiazza, 2010 NASA Lunabotics Competition Joe Kosmo Award for Excellence (given for overall points), 1st place (invitation to NASA Dessert RATS), Kennedy Space Center, FL, May 2010.
 - Ben Hogenson, Jenny Hane, Chris Ching, Steve Pemble, Craig Harne, John Ritter, and Paul Dallapiazza, 2010 NASA Lunabotics Competition, 1st place in Mining Category (\$5,000), Kennedy Space Center, FL, May 2010.
 - Sam Harkness, Jeff Bahr, and Devin Mikes, 2010 IEEE NorthEast Area Student Paper Contest, 1st Place (\$500), Design of a Resilient IO System with automatic fault detection and correction, April 2010.
 - Colin Tilleman and Anthony Thomason, 2009 IEEE Region 6 NorthEast Area Student Paper Contest, 2nd Place (\$250), Radiation Tolerant Computer System, April 2009.

IX. Consulting

- 9/10-3/11 Astek, Inc.
Probing system for MIPI DPHY Protocol Analyzer
- 9/08-8/09 Flat Earth, Inc.
Ultra-Wide-Band Snow Depth Sensor
- 9/08-3/09 Advanced Micro Devices (AMD), Inc.
Design of Microprocessor Probe for Protocol Analyzers
- 8/06-2/08 Agilent Technologies, Inc.
Design of DDR2/DDR3 Memory Probes for Logic Analyzers and Oscilloscopes

X. Service

A. University Service

- MSU Conflict of Interest Committee 2022-present
- *Chair*, ECE Department, Professional Development Committee 2018-present
- ECE Department, Promotion & Tenure Committee 2018-present
- COE Promotion and Tenure Role & Scope Document Review Committee 2017
- MSU Teaching Excellence Action Committee (TEACH), member 2013-2018
- MSU ADVANCE TRACS Cultural Attunement Subcommittee, member 2013-2016
- MSU Online Education Taskforce, Quality Subcommittee Chair 2013
- MSU Online Advisory Committee, member 2011-2014
- IEEE Student Branch Faculty Advisor 2007-2016
- ECE Department, Undergraduate Curriculum Committee 2007-present
- ECE Department, Promotion & Tenure Committee 2007-2014
- College of Engineering, Faculty Development Committee 2007-present

B. Professional Committees & Staff

- Program Committee, IEEE Reconfigurable Computing Conference 2014-2020
- Editorial Staff, "Active & Passive Electrical Components Journal (APEC)" 2006-2009
- Technical Program Committee, DesignCon 04,07-10

C. Manuscript Reviews

- American Society of Engineering Education Annual Conference 2017-pres
- Elsevier Journal of Microprocessors and Microsystems 2017
- Journal of Computer Assisted Learning 2017
- Wakerly, "Digital Design – Principles & Practice", Pearson 2015

E. Outreach / Misc

- Worked with a 2nd grade class to create the logo for a mission to the International Space Station. The class created the logo, which was then put onto stickers and sent to the ISS in April 2016. The stickers returned to Earth in December 2016, were put on plaques, and given to the students as a token of appreciation. ([MSU News story](#))
- Conducted an outreach activity with 4th graders at Morning Star Elementary school where they built simple DC motors to gain experience with electromagnetism (March, 2015).
- Served as a mentor in a week-long robotics camp for 4th/5th graders at Hyalite Elementary School, Bozeman, MT, August 11-15, 2014.
- Presented a "Science of Sound" session to 82 second graders at Morning Star Elementary School, Bozeman, MT, February, 27, 2014.
- Judge, Poster Session, Montana Space Grant Consortium Student Research Symposium, Montana State University, April 12, 2013.
- Presented to 50+ high school students about engineering as a career at the Ennis High School Career Day, Ennis, MT, April 2013.
- Judge, Poster Session, Montana Space Grant Consortium Student Research Symposium, Montana State University, April 13, 2012.
- Participated in MSU's *Conversations with Professors*, an event where incoming students were able to ask questions directly to faculty about what to expect in college and how to be better prepared, August 25, 2012.
- Judge & Session Chair, Computing Track, Montana Space Grant Consortium Student Research Symposium, Montana State University, April 15, 2011.
- Developed Robotics Content for the 1080i studio in the EPS atrium highlighting the interdisciplinary design projects going on in the College of Engineering.

- Participated in a series of Robotics Outreach Activities during the week of 4/5-10-4/9/10 to 4 classes of 4th graders from Morning Star Elementary School. The students were presented the design process used to build the MSU Mule mining robot that competed in the 2010 NASA Lunabotics Competition at the Kennedy Space Center, FL in May 2010.
- Participated in an IEEE sponsored outreach project to mentor middle school students participating in the First Lego League Robotics Competition. I helped organize groups of students from the IEEE student branch to work with teachers & students at local middle schools who are participating in the local robotics competition. (8/08-12/08).

XI. Professional Registration & Membership

- American Society for Engineering Education (ASEE), Member (2009-present).
- IEEE, Senior Member, (2009-present), Member, (1998-2009).
- Registered Professional Engineer, Montana, Reg # 13627, (11/8/06 – present).
- Registered Professional Engineer, Colorado, Reg # 37255, (12/30/02 - present).
