Summer 2026!

Summer Glacier Tour Guide Intern Program

Glacier Park: <https://glacier-tours.com/>

Questions: blueice@mtaonline.net

Application: <https://glacier-tours.com/summer-internship/>

Summer Student Employment

Located just two hours north of Anchorage Alaska, the Matanuska Glacier Park is a family-owned glacier tourism business providing access to the awe-inspiring Matanuska Glacier. Since the early 1990s, we've hosted students from across the U.S., welcoming participants from diverse academic backgrounds. My own summer internship here led to a Ph.D. on this very glacier.

How to Apply

More details about the position and application requirements are available on our recruitment page: <https://glacier-tours.com/summer-internship/>

Please share this opportunity with your students, and if applicable, your office of student internships. We look forward to welcoming adventurous, curious students to the Matanuska Glacier team this summer!

Best Regards, Dr. Sarah Kopczynski (Matanuska Glacier Park Scientist)

Paid Experience: Guides receive a monthly stipend, tips, onsite housing, meals, and training.

Research: Some students pursue independent research on the glacier during their free time, working around tour-guiding schedules, which can lead to thesis projects or GSA / AGU abstracts.
