
Constructing an Online Course: A Demonstration of Three Current Models

Many faculty who would otherwise like to teach an online course may not have taken the plunge simply because it is so intimidating to even imagine how to start designing one.

In this session, a panel of MSU professors will demonstrate various features of their online courses, including presentation of lecture material, designing quizzes, assignment management, grading, facilitating discussion, managing student projects, etc., using the Desire2Learn learning management system. After this session, you should have a good idea of the kinds of things that are possible in structuring an online course—no matter what pedagogical approach you have in mind.

Faculty Panelists:

Philip Gaines

Associate Professor
English Department

Kristin Harney

Adjunct Assistant Professor
Music Department

Susan Luparell

Associate Professor
College of Nursing

Looking for someone
to work with you
individually on teaching?

The Teaching Help Desk has faculty who are available for consultation on various topics such as course design, test development, grading strategies, and more. Contact Charlie Pinkava at tlc@montana.edu or 994-5572.

Thursday, Sept. 24, 2009

Room 126 EPS Building

Lunch Served: 12:15 p.m.

Presentation: 12:30-1:30 p.m.

Please RSVP to annea@montana.edu
by Tuesday, Sept. 22, 2009

Please note: Due to the size of the room, the number of participants will be limited to 40.
